

Victory Okon

Motivated and detail-oriented Front-end Web Developer with years in building dynamic, user-focused web applications and collaborating on multiple client project and, delivering solutions under tight deadlines.

Experience

Front-End Developer — Ozitech

July 2024 – Present

- Developed and maintained large-scale web applications, dashboards, trading platforms, CRMs, and automation tools.
- Collaborated with back-end teams, UI/UX teams, and product managers to deliver pixel-perfect, responsive UI components.
- Built reusable components using Vue, Angular, Sass, Tailwind, and Laravel + Inertia for production-ready environments.
- Integrated APIs, implemented real-time UI updates, and optimized complex front-end logic for speed and clarity.
- Contributed to dozens of projects back-to-back with strong reliability and rapid execution under tight delivery schedules.

Trainee — Ozitech

November 2023 – June 2024

- Completed intensive training in HTML, CSS, JavaScript, and Bootstrap with real project experience.
- Turned complex requirements into clean, intuitive user experiences.
- Assisted in developing web projects while gaining hands-on front-end development skills.

Selected Projects

ReliaCRM — Web Hosting Management Platform

A fully-featured hosting management and billing system automating provisioning, domain reselling, invoicing, payment processing, user management, and support tools. I contributed extensively to UI development, dashboard components, billing interfaces, customer pages, and admin controls.

Social Arkive — Social Media Scheduling Platform

A platform allowing users to post to multiple social media channels at once, including advanced scheduling with daily, weekly, and monthly calendar views. Built modals, interactive scheduling UI, timeline components, previews, and multi-channel editing tools.

Tools Gold Park Trading — Multi-Asset Trading Platform

A trading app supporting currencies, crypto, and commodities. Implemented trading UI components, bid-placement interfaces, product listings, asset detail views, and various user-facing dashboards.

Others

- Unity Coin — Crypto & asset trading platform
- My AdShop — Platform for paid digital ads placement
- Tierwave / Infinity Pair / Unilux MLM / Spark Agro Life — Health & wellness multi-level platforms.
- Ozitech Website Redesign — Helped redesign and implement the new corporate website.
